The Sullivan Brothers Family of Companies (SBFC) delivers a wide range of environmental remediation, disaster recovery, healthcare, construction, infrastructure and industrial services to North America and beyond. These independent companies are currently engaged in many large-scale projects for local, state and federal government agencies, as well as the private sector. Our collective project portfolio includes some of the largest environmental restoration, flood protection, debris removal, emergency response, housing and health response initiatives in the nation.

With extensive land, heavy civil, and marine-based experience, our portfolio of operating companies provide critical infrastructure improvements and coastal design-build services. In addition, our companies facilitate the import and export of refined products and dry bulk cargoes and participate in international trade through the processing of refined products and distribution of fuel oil and the dredging of docks and waterways. SBFC also has a portfolio of investments in the natural resources of our country, enabling energy independence and sustainability for future generations.

SBFC is a growing enterprise that builds, operates and invests in industries and businesses that work daily to transform communities and improve individual lives.

OUR COMPANIES SUCCESSFULLY EXECUTE LARGE, MULTI-DISCIPLINARY PROJECTS FOR PUBLIC AND PRIVATE SECTOR CLIENTS ACROSS THE GLOBE, SOLVING COMPLEX CHALLENGES WITH A FOCUS ON SAFETY AND EFFICIENCY.

OUR TIMELINE / HISTORY

“ One common value among our companies and employees is the goal to provide quality customer service. Our companies stand ready to serve others in their time of need, and that passion for others is what makes us different.

- Billy Sullivan, Principal

”

CONSTRUCTION SERVICES

SLSCO LTD. (SLS) is a diverse and results-driven general contracting and construction management firm, providing the full spectrum of disaster and emergency response, construction, development, health and infrastructure services. We serve all levels and sectors of government and private industry and are currently engaged in critically unique assignments, both domestically and globally.

slsco.com | 713.880.8411

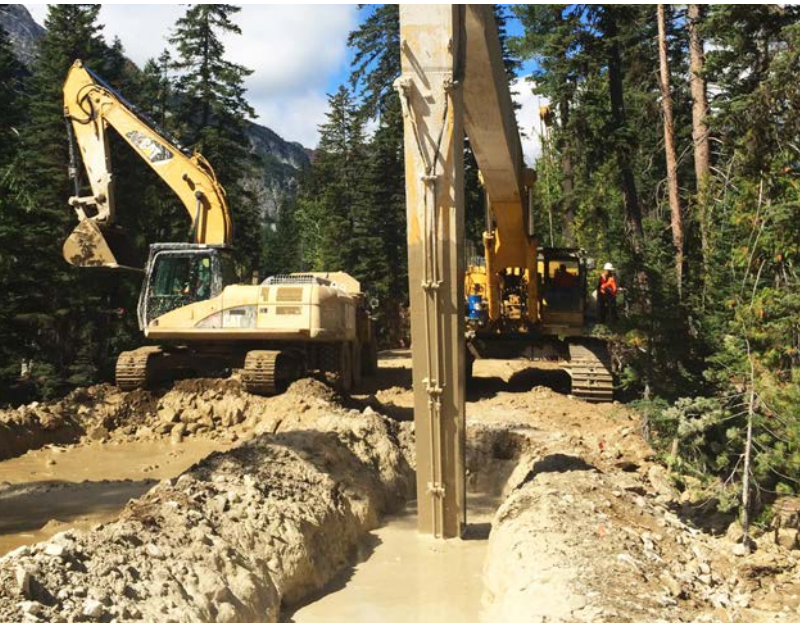

DRC Emergency Services (DRC) is among the leading disaster management companies in the United States and overseas, specializing in providing emergency preparation, disaster, response and recovery from major catastrophes.

DRC has decades of experience providing comprehensive, natural and man-made disaster solutions to federal, state and local governments. Our experience covers all facets of a project, including the FEMA reimbursement process.

A vital part of the global economy's value chain, Texas International Terminals is a world-class liquid and dry bulk multi-modal facility for deep draft vessel, unit train, manifest rail, barge and trucking along the Galveston Ship Channel. Our centrally located facility features rail, marine and highway connectivity to efficiently link clients with both the global and the domestic marketplace.

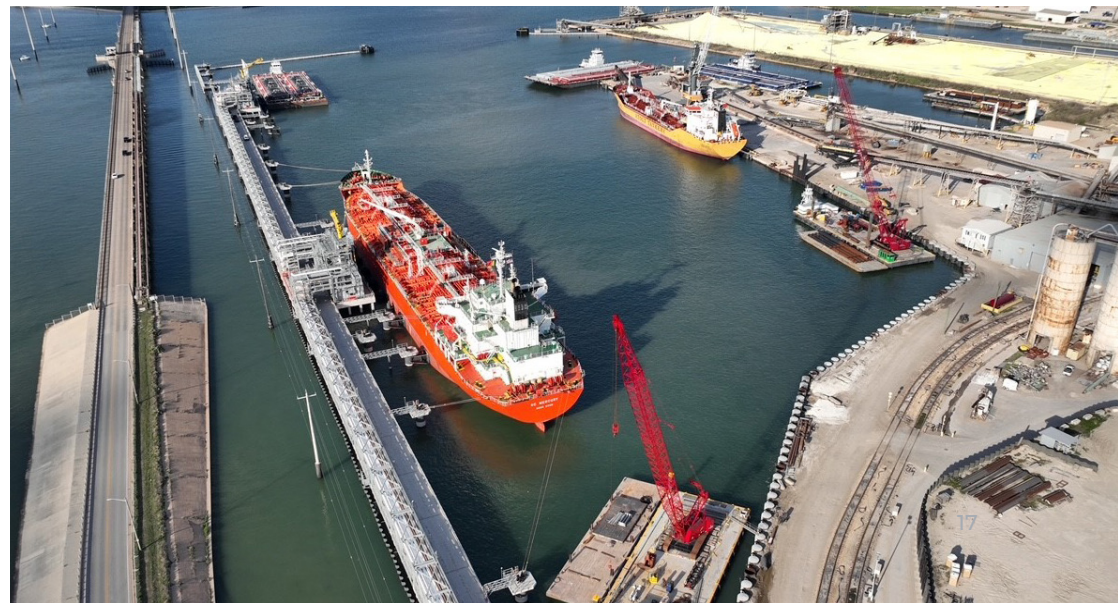

titerminals.com | 409.762.5400

GCC Supply & Trading is a diverse natural resource and commodities trading company with capabilities to responsibly and efficiently supply commodities, energy, refined products, & petrochemicals on a global scale. By deploying internal capital resources, in-house expertise, and other core competencies, we serve a diverse customer base and create value for a wide range of consumers.

gccbunkers.com | 713.880.9812

Tres Power LLC, a Texas-based independent power company, owns and operates natural gas-fired peaker plants, capable of delivering backup power generation to the ERCOT grid.

The state's historic freeze in 2021 exposed the intermittent reliability of the Texas power grid – Tres Power's facilities quickly energized to provide backup generation to meet the increased need for reliable electricity during periods of peak demand.

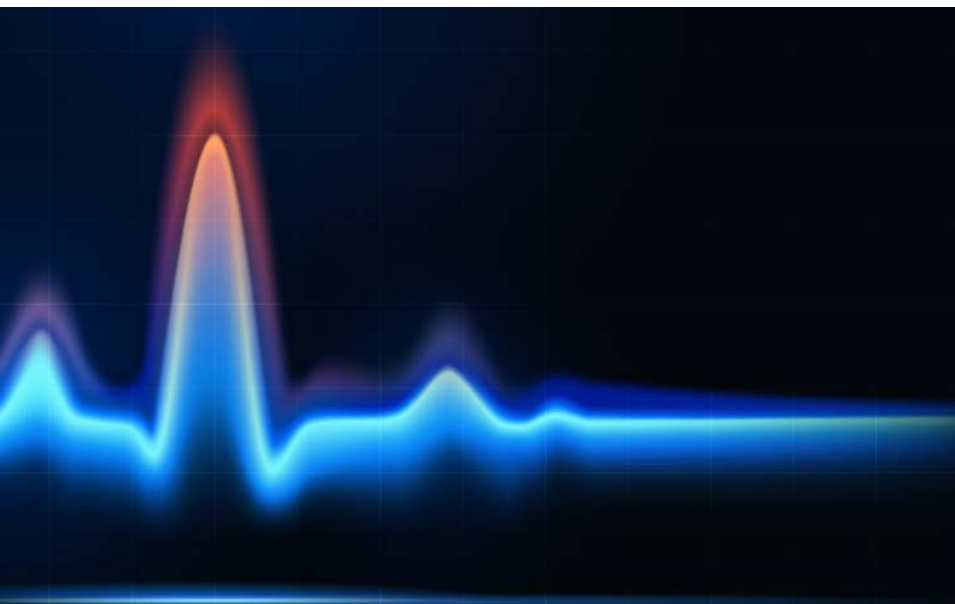

tres-energy.com | 713.880.9888

Tres Natural Resources LLC is an upstream oil and gas company with operations in the Permian Basin of West Texas, New Mexico and the Marcellus Shale in Northeast Pennsylvania. As an independent operating company, Tres Natural Resources is committed to operating safe, environmentally conscious production sites and to developing new, strategic reserves throughout the Lower 48 and the Gulf of Mexico.

tres-energy.com | 713.880.9888

Sunbridge Energy Services is a fuel logistics service provider delivering clean-burning Compressed Natural Gas (CNG) to the upstream oil and gas industry, displacing the use of diesel in the field. Sunbridge's brand new, state-of-the-art CNG production facility is located in the Permian Basin of West Texas, and provides its customers with a cleaner, more cost-effective solution to powering their operations.

sunbridgeenergyservices.com | 832.378.6033

Paloma Pressure Control is a premium oilfield service company that specializes in pressure control for the frac industry. With an acute focus on exceptional quality and service, our team has quickly earned a reputation across the field that has initiated an unparalleled level of growth, year after year.
