State Board of Pardons & Paroles Operations Manual Performance Incentive Credits (PIC)

Title:	Performance Incentive Credits (PIC)	Reference Number:	
Effective Date:	May 3, 2017	Page:	1 of 1
Last Revised:	August 2025	Authority:	Pre-Release Consideration Division Director

Certain offenders are eligible to earn Performance Incentive Credit (PIC) while in the custody of the Georgia Department of Corrections. The Board may apply such PIC to advance any Tentative Parole Month (TPM) it has established for the offender. PIC may be earned as follows: a maximum of six (6) points for programs completed pursuant to the offender's GDC initiated case plan, a maximum of six (6) points for certain completed work details, and/or six (6) points for Educational/Vocational improvement. No more than twelve (12) PIC points will be applied to advance an offender's TPM. The number of PIC points applied shall in no event advance the offender's TPM below his/her Parole Eligibility Date (PED); if an offender's TPM is at or below PED, no PIC points will be applied. The Board maintains the authority and discretion to vote for "No PIC" on any Guidelines case being considered for parole. (10/19)

At the time of the Final Review, the offender's TPM may be adjusted to reflect his/her applied PIC points. (10/19)
